SPECIAL EXHIBITION

THE ART OF PERFECT ORDER

The Baroque Garden

Launching out from the resplendent garden grounds on site, the exhibition spotlights the central features of Baroque artistic horticulture at the Imperial and aristocratic Court of the Habsburgs. The exhibition provides inside views into how impressive sites for leisure and recreation were created using artistic and creative elements, sculptures, plant arrangements and technical innovations, including fountains, jeux d’eau, fireworks, and more.

Yet the Baroque garden was far more than just a place for aristocratic leisure pastimes. It reflected power and riches and was simultaneously an expression of a luxurious hobby that consumed huge resources of personnel and material.

For the first time, the special exhibition covers practically the entire area of the Schloss Hof Estate—a synthesis of the arts and nature in the spirit of a Baroque total experience.

GARDEN

The Baroque garden was based on the French model in planning and was a place people marveled at even then in the eighteenth century. It has been revitalised in every authentic detail, so now the palatial garden shines out in all its full glory and is prized today as one of the most outstanding in Europe.

Baroque Garden

Seven terraces descending towards the river March are divided in the centre by a vertical and mirror-imaged visual axis. Symmetrically arranged **flower beds**, numerous **sculptures**, imposing **fountains** and a labyrinth and maze transform the garden today as in the past into an idyllic spot for hours of leisure and recreation.

Prince Eugene’s **orangeries**—two technically and architecturally imposing glasshouses with fore-gardens—also beckon us to linger awhile and enjoy.

Theme Gardens

The estate farm gardens and orangery gardens are showpieces inspired by the theme of “nature in the garden” and are a hundred percent ecological in management. Besides the Baroque sections, idyllic theme gardens invite visitors to go on a horticultural tour of discovery—rose gardens, the “Naschgarten”—Snack & Berry Garden—not forgetting the Jam and Herb Garden. The Weinviertel Farmer’s Garden is proud to put on show the diversity of the region.

ESTATE FARM

The historical estate farm of Schloss Hof is one of the largest of its kind to be preserved in Europe. It combines Baroque tradition, handicrafts and nature, a unique experience that makes history live again.

Authentically reconstructed **craft workshops** are set up here including basketry and a plum-brandy distillery, giving visitors a close-up view and insight into traditional crafts. Around **240 animals**, among them Lipizzaner horses, the rare white Baroque donkeys, also ancient Austrian-Hungarian domestic species bring life once more into the historical stables, pastures and **Petting Zoo**.

The **Water Experience Trail** first opened in 2025 combines history with fun and play. Explore and actively experience water technology hands on, including how water flows, how it is dammed and moved. A place to chill out and relax under the shade of ancient trees.

A World of Experience

Besides the Water Experience Trail and the Petting Zoo, even more exciting adventure trails and thrilling attractions for the whole family await you on the estate farm: **balance bike course, wooden ball run, break rooms, adventure playgrounds** and **two interactive adventure trails** with play stations all about the history and activities on the Schloss Hof estate farm.

CATERING

The **Restaurant Kräutergarten** is at your service all the year round with a wide-ranging selection of seasonal specialities, mainly with regional ingredients from the Marchfeld region. Organic herbs from the Estate farm's own herb garden add that special refinement to our dishes.

The renovated **Café Arkadenhof** offers a range of coffee and tea specialities, pastries, and small snacks for guests both big and small.
