Gold Spoons and Imperial Tableware – Dinner is served!

The new special exhibition at Schloss Hof Estate puts on show the most fabulous pieces from the inventory of the former Imperial Court collection of silver and tableware. Exquisite artworks made of glass, porcelain and silver vividly reflect the glittering world of courtly dining culture from the Baroque era through to the age of historicism.

Kitchen Secrets Behind the Scenes

Schloss Niederweiden is part of Schloss Hof Estate and completes the theme of the Imperial dining culture by presenting an inside view of court kitchens. It conveys a fascinating impression of the complex tasks of court management and of the enormous efforts taken to organise the opulent ceremonials of the Imperial household.
